

Since 1997, Meathead Movers has taken the simple philosophy of superior customer service and parlayed it into a thriving and growing company that has changed the way people perceive the household moving and storage industry. Meathead Movers currently handles more than 15,000 local moves per year, and has been voted the #1 moving company in every market served.

Founders and brothers, Aaron and Evan Steed, manage a team of energetic student athletes who deliver a unique customer service experience with a relentless strive to make things happen. College athletes are busy and Meathead Movers understands how hectic their schedules can be. Management works around games, practices and tests to make sure team members are able to focus on school and athletics, while developing skills for their future careers. Team members are encouraged to stay fit and healthy, so Meathead Movers offers the opportunity to work out in between jobs or after work with an on-site gym. Because Meathead Movers is hiring students, it is essential to maintain good grades and keep an updated resume. Management acts as mentors and helps balance work, school and sports, while coaching students every step of the way to reach their full potential. Each branch is equipped with an on-site computer lab to help the students stay on track.

Meathead Movers is committed to utilizing its talents to help those who need it most. With the alliance of seven local domestic violence shelters in each operating service area, Meathead Movers pledges to move victims out their domestic violence situations for free. Additionally, Meathead Movers is proud to offer a unique Senior Care Program to assist mature adults moving in and out of assisted living facilities. Accompanying the Meathead Movers are the Meathead Packers, a team of expert packers who always go a step above for customers.
